Acupuncturists
OF ALBERTA

NUMBER OF ATTEMPTS ON ALBERTA ACUPUNCTURE REGISTRATION EXAMINATION

General

This policy is developed to best serve public interest and move the acupuncture profession forward. It is based on the normal practice adopted by many professional regulators. Consideration is also given to ensure candidates have sufficient time to prepare for the Alberta Acupuncture Registration Examination.

Policy

- A candidate is allowed three (3) attempts on each component of the Alberta Acupuncture Registration Examination.
- If the candidate is not successful upon the third attempt, then such candidate must submit proof that the applicant has completed adequate coursework and/or gained practical experience satisfactory to the Registration Committee when they apply for a final attempt on the failed component(s) of the registration examination.
- If a candidate is still unsuccessful upon the final attempt, the candidate is required to take a full acupuncture program approved by the Alberta Health Disciplines Board, or a program of studies substantially equivalent to those based in Alberta, before being eligible to attempt the entire registration examination again.
