

PAN-CANADIAN EXAMINATION REQUEST FOR ACCOMMODATION

CARB-TCMPA is committed to accessibility, improving opportunities for people with disabilities, and supporting a more representative and inclusive TCM/A profession. CARB-TCMPA will provide reasonable special accommodations for candidates with special needs, for candidates with a religious reason that prevents them from writing on the scheduled examination date, or for other medical situations deemed appropriate by the Appeals and Accommodations Committee.

Candidates with disabilities are entitled under the human rights legislation of each province to reasonable examination accommodations that provide for fair and valid assessment. A disability is any health-based restriction that may prevent candidates from demonstrating their competence should they be writing an examination under regular examination administration conditions. A disability may include any degree of physical disability, mental health impairment, or a learning disability. Lack of proficiency in English or French is not grounds for requesting any form of accommodation.

To request an accommodation, candidates must complete both the [Request for Accommodation form](#) and the [Verification of Candidate's Disability form](#). Candidates should carefully read the instructions, ensure that both forms are completed, and send completed forms to accommodations@carb-tcmpa.org.

Sincerely,

College of Acupuncturists of Alberta
